Years with
Randall Thorp
From 2005

RESPONSIBILITIES

Ben joined the practice in 2005 having had experience of working for both private practices and Local Authorities.

He is a highly valued member of our team providing imaginative design solutions for our clients on a range of projects as well as administration of contract work on site. His knowledge of Local Authority workings has proven valuable for a variety of our client's projects. Ben acts as a mentor for members of staff who are working their way towards chartered status with the Landscape Institute.

EXPERIENCE

Before joining Randall Thorp in Manchester, Ben worked for BDP, Manchester; Manchester City Council; and Novell Tullett, Bristol.

While at Randall Thorp Ben has worked on a broad range of projects but principally with Cambourne 950 where he has taken responsibility for dealing with both gaining reserved matters planning permission for, and constructing all elements of the landscape infrastructure.

KEY PROJECTS

CAMBOURNE, CAMBRIDGESHIRE (2005 - present) *CAMBOURNE CONSORTIUM*

Design team co-ordination: Responsibility on Cambourne and other projects for the co-ordination of infrastructure schemes including disseminating design guidance, constraints, and health and safety issues to the team and ensuring that all drawn information is showing common information. Identification of areas of cost saving through organised and phased working.

Responsible for all 'on site' issues relating to the landscape infrastructure. This includes managing and allocating client's expenditure on landscape items, liaising directly with the client and other members of the Cambourne Design Team on development progress as well as working with the Cambridgeshire Wildlife Trust and Cambourne Parish Council to secure the swift and efficient adoption of public facilities.

Detailed design: responsible for the design of Cambourne green infrastructure and obtaining planning approval, including Cambourne's extensive natural play areas, greenways, village greens and large scale woodland planting.

Contract administration: responsible for all landscape works on site from tender through to completion and maintenance.

Site management: Contract Administrator for the landscape maintenance contract but also responsible for the ongoing management of the existing woodlands and establishing landscape- overseeing and assisting the various parties responsible for their management.

CDM: Experience of both principal designer and designer roles ensuring pre contract risk is considered, minimised and documented and that contractors are aware and fulfil their duties.

KEY PROJECTS:
(continued):

EDEN GRANGE, CUDDINGTON (2013)

TAYLOR WIMPEY NW

Providing detailed proposals for 158 houses within a landscape lead masterplan as a reserved matters application and for landscape related conditions.
