University of London

Key Skills

- Environmental Impact Assessment
- Expert witness services
- Green Infrastructure design
- Large scale masterplanning
- Planning and the planning system
- Project management

Years with
Randall Thorp
From 1986

RESPONSIBILITIES

Pauline became a Consultant to the practice in 2017. Prior to that she had been a founding partner, responsible for the development and delivery of work around masterplanning, project management, EIA and expert witness services.

EXPERIENCE

Pauline's training in natural sciences, and her early experience of urban river valley planning and large scale land reclamation whilst working for Greater Manchester Council, has underpinned a career in which she has successfully worked for a wide range of clients on increasingly large scale development plans and landscape masterplanning.

Whilst working as consultant to the Highways Agency she was responsible for the client's quality control of landscape impact assessments for trunk road and motorway schemes undertaken in accordance with Highway Agency guidance.

In 1989-90 Pauline successfully provided landscape planning and expert witness services for clients promoting the new settlement project in Cambridge (Cambourne). Pauline then had particular responsibility for landscape strategy and planning liaison for our Cambourne clients, producing a number of strategic documents including: The Cambourne Landscape Structure Plan, Landscape concepts for Cambourne, and Landscape Management Options for Cambourne.

Since 1989 Pauline has regularly prepared and presented expert landscape evidence to Planning Appeals, Local Plan, UDP and LDF Inquiries on environmentally sound site planning for new developments, including housing, business, landfill and mineral extraction sites. Since 2001 she has increasingly been appointed to coordinate multi-disciplinary teams preparing masterplans, planning applications, and environmental statements, offering our clients considerable skills in project management.

Throughout her career, Pauline has maintained links with the world of landscape education, through studio teaching and examining. She has fulfilled the role of External Examiner for the Undergraduate course at Leeds Metropolitan University (1993-1997), for the Diploma year at Sheffield University (1998-2003), and the postgraduate courses at Newcastle University in 2004.

PROFESSIONAL ACTIVITIES

- Member of the Landscape Institute Council from 1986 to 1994.
- Honorary Treasurer of the Landscape Institute (1989-93).
- External Examiner for Landscape Architecture degree course at Leeds Metropolitan University (1993-97).
- Sheffield University (1998- 2003) and Newcastle University (2004-2006).
- Member of the LI Annual Review Group for landscape courses at Sheffield University (2005-2009).

KEY PROJECTS:

GRIMES DYKE LEEDS AND OTHER PROJECTS (2010 - 2011)

TAYLOR WIMPEY

Project partner and masterplan team coordinator for new housing schemes incorporating green infrastructure planning to meet client and planning aspirations. LVIA and expert witness services as required.

OCEAN GATEWAY (2008 - 2009)

PEEL HOLDINGS

Landscape consultant to the planning team exploring the problems, opportunities, and connections of the Manchester Ship Canal corridor. Development of initial draft vision for connected Green Infrastructure throughout the corridor.

WORSLEY NEW HALL & SALFORD FOREST PARK (1998 - 2010)

PEEL HOLDINGS

Lead masterplan consultant and ES coordinator for extensive recreational proposal with visitor facilities on a historic estate. Ongoing development of plans for the restoration of Worsley New Hall gardens in conjunction with enabling development.

MANOR FARM, BESSACARR (2006- 2009)

PERSIMMON HOMES (YORKSHIRE) LTD

Masterplan coordinator for team of developers and consultants preparing proposals for a medium density 900 unit housing scheme with extensive green infrastructure laid out as a country park and interconnected greenways on a site adjacent to Potteric Carr SSSI. Preparation of proof and landscape evidence for Public Inquiry.

WALTON LOCK, WARRINGTON (2004 - 2008)

PEEL HOLDINGS AND DAVID WILSON HOMES

Project partner and team coordinator for proposals to develop high density housing on brownfield land in conjunction with the creation of a new linear park along the route of the Trans Pennine Trail through Warrington.

GERMANY BECK, YORK (2002 - 2007)

PERSIMMON HOMES (YORKSHIRE) LTD

Masterplan consultant and expert witness in connection with proposals for a medium density 900 unit housing scheme, incorporating proposals for a new nature park and SUDS area on the course of an existing canalised stream. Preparation of proof and landscape evidence for Public Inquiry. Landscape witness at Public Inquiry.

LIVERPOOL JOHN LENNON AIRPORT MASTERPLAN (2001 - 2007)

PEEL HOLDINGS

Landscape consultant in multi-disciplinary team developing long term proposals for Liverpool John Lennon Airport, including the extension of the Speke Coastal Reserve along the Mersey River, and green infrastructure connections associated with new road proposals.

STRETFORD MARINA (1999 - 2004)

PEEL HOLDINGS

Project partner and design director for scheme to build medium density housing and a new marina on redundant privately owned playing fields adjacent to the Bridgewater Canal in Stretford.

BRIDGEWATER CANALWAY STUDY (2002)

BRIDGEWATER CANAL TRUST

Lead consultant working with Bridgewater Canal operatives to develop a vision for the improvement of the Bridgewater Canal corridor. Project now being taken forward for implementation in phases by the Trust and their partners.

**KEY PROJECTS
(continued):**

PRIORY HOSPITAL, EDGBASTON

GENERAL HEALTHCARE 1999-2002

Project partner and lead landscape architect for extension of hospital facilities on site with well established tree structure, including sensitive integration of new facilities into existing landscape and provision of all necessary plans for planning approvals.

CAMBOURNE

CAMBOURNE CONSORTIUM 1995 – 1998

Project partner and lead landscape architect for masterplan development and preparation of the approved landscape structure plan up to commencement of work on site. The scheme encompasses circa 240 ha of open green infrastructure comprising interconnected greenways, village greens, Country Park, perimeter woodlands, eco-park, attenuation lakes, ditches and extensive new habitats.

GREAT COMMON FARM

STANHOPE PLC 1989-1995

Landscape architect and expert witness concerning environmental aspects of site selection and initial proposals for a 3,000 home new settlement west of Cambridge. This site was recommended by the Planning Inspector after an extensive public inquiry, and was later subsumed into the Cambourne scheme.
